

B.E.A.M™

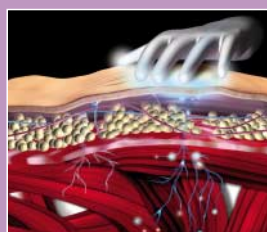

Bio Electrical Acceleration Management

The human body is a well built machine with many unused capabilities. B.E.A.M™ is a revolutionary technology that works in harmony with the natural systems of the body, utilizing those hidden resources.

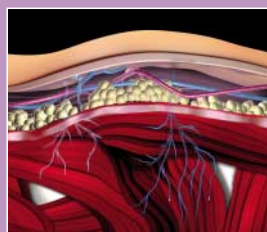

Facial muscle

Before treatment

During treatment

After treatment

Bio - Building and conditioning muscles is an instinctive response to the repeated contraction of muscle fibers. As the muscles contract, the fibers restructure and build on top of themselves. The restructured muscles are stronger and take up less space.

Electrical - Pulses from B.E.A.M™ imitate the body's own natural electrical signals from the nervous system. B.E.A.M™ is an external trigger for muscle activation stimulating and controlling the contraction of specific muscles or muscle groups.

Acceleration - B.E.A.M™ accelerates the body's own natural process producing superior results in less time. Since B.E.A.M™ communicates directly with the muscles, they can perform more controlled contractions in less time. The higher rate of contraction increases blood circulation and improves metabolism for optimal results.

Management - B.E.A.M's unique management system allows you to control this bio-electrical process. With precise adjustments, the advanced software synchronizes and customizes each micro- parameter of the pulses for accurate and measurable clinical results.

After a treatment session with B.E.A.M™, muscles have been toned under optimal conditions. As a result, muscles become stronger and more defined. The activated muscle causes immediate circumferential reduction, and leaves the client with tighter, younger and healthier looking skin.

New-Lift™ designed for you....

The New-Lift™ Facial Renewal system is effective and easy to use. The innovative management system is equipped with straight forward treatment settings that eliminate the risk of error. There is no need to spend hours learning because B.E.A.M™ walks you through the treatment step by step. New-Lift™ saves you time by employing a powerful processor that enables you to treat two different body sites or two different clients simultaneously. For long lasting results a full treatment course can be completed in only 4-5 weeks.

...and your clients

New-Lift™ strengthens muscle tone to tighten the skin and smooth wrinkles, while stimulating skin renewal for a younger, fresher look. Plus New-Lift™ enhances absorption of serums and vitamins through Virtual Meso-therapy. New-Lift™ can upgrade any facial treatment currently offered at your practice, for great results that your clients will love.

Just 1 or 2 B.E.A.M™ sessions will increase muscle tone, tighten skin and give your clients immediate visible results.

Adding New-Lift™ to your practice, will improve your efficiency and productivity and increase your profits:

- ~ **Immediate Visible Results:** Creating satisfied customers from the very first session.
- ~ **Effective Safe Treatments:** The ability to continuously fine tune micro-parameters allows you to better imitate the body's natural bio-process.
- ~ **Easy to Use & Operate:** The state-of-the-art Human Machine Interface (HMI), equipped with a 10" color-touch screen, guides you smoothly through each stage of the treatment process.
- ~ **Powerful Processor:** Allows you to treat two different body sites or two different clients simultaneously, creating higher revenues.
- ~ **Compact, Lightweight Tabletop Unit:** Less than 7 kg, looks great anywhere and is easily carried in your car trunk for treatments on the go.
- ~ **Saves Time and Cuts User Errors:** Offers quick selection between various options to save valuable staff and client time.
- ~ **Competitively Priced:** Cost-effective without compromising on quality and performance. More affordable for you and your client.

"My New-Lift™ machine is the greatest asset to my salon, the B.E.A.M™ management system makes it easy to use and my clients especially love the relaxing Magic Gloves massage that keeps them happily coming back for more."
